## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Blount on 2/16/2005.

In the Abstract of 1/5/2001, the second paragraph:

"The water, sodium hydroxide and calcium oxide are recovered for reuse and the lignin may be burned to furnish heat for the process. The reaction of the sodium hydroxide with the biomass is exothermic and furnishes heat for this process and heat is captured by a heat exchanger." has been deleted.

Any inquiry concerning this communication should be directed to James O. Wilson, Supervisory Patent Examiner in Art Unit 1623 at 571-272-0661.
